Dear Friends,

By September 29 organizers from the International Workers Party will have moved out of New York City to establish regional offices in Los Angeles, Detroit, Atlanta, Chicago, and Washington D.C.. The fascists led by the Rockefeller faction are moving, rapidly to implement their plans for International fascism. We must move even more rapidly to build the mass classwide organization that alone can stop the fascists and move toward International Socialism.

The International Worker is the ideological weapon of the International Workers Party and of the class. It is the only newspaper that presents to the class a real analysis of the economic and political crisis confronting the human race today. Every member of the working class, every human being must be organized to face the reality of the deepening depression and the capitalists moves towards fascism, to become part of the mass organization needed in this period. The International Worker is an integral part of that mass organizing process, a process in which you, as a member of the human race must now engage.

We urge you to subscribe to the International Worker, to educate yourself and to organize those around you for the survival of the human race. We have very little time. A subscription blank is available in this issue. Subscribe today.

In Solidarity,

The International Workers Party
